CAREER OBJECTIVE

- As an aspiring DevOps Engineer, I seek to leverage my academic foundation and hands-on experiences to contribute effectively in a dynamic team. Eager to apply and enhance my skills in areas like CI/CD, IaC, and cloud technologies, I am committed to continuous learning and achieving excellence in the field.

PROJECTS

GYM MANAGEMENT SYSTEM

📅 Few 2023 📍 R L Jalappa Institute Of Technology

- GYM Management System. This is a website with a admin panel to manage the members and plans of a GYM.
- Tool - VS Code, XAMP

CAR Loan EMI Calculator

📅 July 2023 📍 R L Jalappa Institute Of Technology

- CAR Loan EMI Calculator is a Mobile Application developed using the Java language as a mini project of Mobile Application Development laboratory subject.
- Tool - Android Studio

ACHIEVEMENTS

🏆 **IEEE YESIST12 (Idea Presentation), May 2023**
Proposed "AGRI NEWS," a project focusing on aggregating daily news relevant to farmers and facilitating farming-related discussions. Designed a platform where farmers can share their issues in various formats such as text, video, audio, and images. Implemented a collaborative approach for problem-solving, with analysis conducted by a dedicated team or experienced members within the farming community.

🏆 **IEEE YESIST12 (Idea Presentation), Jan 2022**
Presented an innovative concept: "Automatic Voice Detection and Alert System," aimed at enhancing traditional SOS alert mechanisms with advanced features, prioritizing women's safety and security.

EDUCATION

B.E (CS&E)
📅 2020 – 2024 📍 R L Jalappa Institute Of Technology

PUC (12th)
📅 2020 📍 SMJ Science PU College

SSLC (10th)
📅 2018 📍 Indira Priyadarshini Eng Med H S

AREA OF INTEREST

DevOps   Software Developer

DevOps Culture and Practices
